

SUPPORTED EMPLOYMENT

Earn while you learn!

What is Supported Employment?

For people with a disability who need a little bit of extra support on the job, Windgap provides a range of Supported Employment opportunities.

From our Growability Garden Crew, to the variety of work we offer in our warehouse operations, there is something for everyone.

We also offer work training opportunities in our Hospitality and Café program within our in-house Café and with our hospitality workplace partners.

Warehouse Operations

Our purpose built, professional warehouse is one of Windgap's Australian Disability Enterprises (ADE), offering a variety of jobs, skills and training opportunities.

Jobs can vary from picking and packing, sorting, filling gift baskets, to putting labels on products, building boxes or shrink wrapping items.

We have many business that we partner with to provide a range of work in our warehouse, offering variety of jobs to learn and practice new skills.

Work Experience and Skill Training:

- Operating a range of equipment including, pallet jacks, pallet wrapping machines, compactors, and shrink wrap equipment
- Conveyer belt operations
- Picking, packing and sorting skills
- Building boxes of different shapes and sizes
- Quality control and Work Health and Safety

Certification Opportunities:

Depending on the interests of employees, we also partner with TAFE NSW to provide onsite training for qualifications.

The current TAFE certification we have on offer is in Warehouse Operations and Forklift License.

Growability Garden Crew

Growability provides Supported Employment in residential and commercial lawn mowing and garden services within the community.

Supported Employees can earn an income while receiving real on the job work experience and skill development, by our professional team leaders who work with each individual's talents and skills.

There are many roles within Growability, providing employees with a range of experiences, roles and development.

Work Experience and Skill Training:

- Training in using a lawn mower and whipper snipper
- Leaf blowing, wheel barrows, branch and waste removal
- Planting, weeding, pruning, trimming, fertilising
- Pressure washing and cleaning up
- Other garden maintenance, improvements and upkeep
- Customer service
- Work Health and Safety

Certification Opportunities

Depending on the interests of employees, we also partner with TAFE NSW to provide onsite training for qualifications. The current TAFE certification we have on offer is in Horticulture.
